EJIS is an official journal of The OR Society.

Aims and Scope:

European Journal of Information Systems provides a distinctive European perspective on the theory and practice of information systems for a global audience. We encourage first rate research articles by academics, but also case studies and reflective articles by practitioners. We provide a critical view on technology, development, implementation, strategy, management and policy.

Readership

Information systems professionals in industry, commerce, government and academic departments of management, business and computing.

Online Features and Site License Access:

- Online archive available back to 1992.
- A Site License provides access to all content published during the supply period. Access is granted to a further rolling four-year archive where available during the supply period only. Archive content not included in the license agreement is available to purchase.
- Users benefit from all the online features outlined on page 3.
