Print ISSN: 1680-4333 Online ISSN: 1682-0983

Impact Factor: **EPS** has been accepted for coverage by Thomson Reuters Social Sciences Citation Index.

European Political Science is a journal of the European Consortium for Political Research.

Aims and Scope:

European Political Science (EPS) is an international journal devoted to publishing contributions by and for the political science community. Its interpretation of "political science" is wide and encompasses comparative politics, political economy, international relations, public administration, political theory, European studies and related disciplines.

It publishes pieces on how the discipline is, can be and ought to be.

EPS also includes more substantive pieces that provide a political science perspective on important current events. In addition to original articles, the journal carries shorter notes, review articles and symposia, progress reports on lively areas of research and profiles of people in the profession.

Online Features and Site License Access:

- Online archive available to purchase back to 2005. 2001-2004 archive hosted via Society website.
- A Site License provides access to all content published during the supply period. Access is granted to a further rolling four-year archive where available during the supply period only. Archive content not included in the license agreement is available to purchase.
