2008: VOLUME 21 • 4 ISSUES PER VOLUME

Print ISSN: 0952-8733 Online ISSN: 1740-3863

**Higher Education Policy** is the Quarterly Journal of the International Association of Universities (IAU).

## Aims and Scope:

**Higher Education Policy** is an international journal for advancing scholarly understanding of the policy process applied to higher education through the publication of original analyses, both theoretical and practice-based, the focus of which may range from case studies of developments in individual institutions to policy making at systems and at national level.

**Higher Education Policy** has two distinguishing features:

- It encourages contributions that make explicit comparison between systems of higher education.
- It is theme based, involving a common focus or combining articles which individually contribute to an overall topic.

Through this journal the International Association of Universities (IAU) wishes to strengthen the exchange between scholarship and issues of practical administrative concern within the perspective of the disciplines that contribute to the study of this field - anthropology, history, economics, public administration, political science, government, law, sociology, philosophy, psychology, policy analysis and the sociology of organisations.

## Online Features and Site License Access:

- Online archive available back to 1996
- A Site License provides access to all content published during the supply period. Access is granted to a further rolling four-year archive during the supply period only. Archive content not included in the licence agreement is available to purchase.
