Editor: Greg Perry, Director General, European Generic Medicines Association, Belgium

OCTOBER 2007-SEPTEMBER 2008: VOLUME 5 • 4 ISSUES PER VOLUME

Print ISSN: 1741-1343 Online ISSN: 1741-7090

## Aims and Scope:

**Journal of Generic Medicines** is the major, international business journal for expert analysis, briefings and legal updates on all aspects of business development, regulatory affairs, manufacturing and marketing affecting the generic pharmaceutical industry. Each quarterly issue publishes analyses, briefings and updates which are of direct relevance to practitioners and that meet the highest intellectual standards.

Subscribing to **Journal of Generic Medicines** will give you and your organization access to the latest thinking from some of the world's leading authorities, including articles on:

- strategies for challenging and protecting patents
- pricing and reimbursement trends and policies - country by country
- fair and unfair tactics to block generic competition
- patent expiries and their impact on national, regional and global markets
- business development strategies and licensing agreements
- clinical trials and bioequivalence studies
- m&a strategy
- regulatory affairs
- major buyers' tender procedures
- data exclusivity and patents
- manufacturing and outsourcing
- briefings from government agencies
- marketing and branding strategies
- strategies for challenging innovators
- analysis of disease sectors
- own brand markets
- R&D
- legal briefings - including case law discussions
- market reviews
- the OTC generic market
- packaging and labelling
- biogenerics
- purchase strategies
