Print ISSN: 0268-3962 Online ISSN: 1466-4437

Impact Factor: 1.966† 24/99 in Computer Science, Information Systems;  
10/61 in Information and Library Science; 27/89 in Management

**Journal of Information Technology** is published in conjunction with the  
Association for Information Technology Trust.

## Aims and Scope:

The aim of the **Journal of Information Technology (JIT)** is to provide academically robust papers, research, critical reviews and opinions on the organizational, social and management issues associated with significant information-based technologies.

**JIT** focuses on new research addressing technology and the management of IT, including strategy, change, infrastructure, human resources, sourcing, system development and implementation, communications, technology developments, technology futures, national policies and standards. It also publishes articles that advance our understanding and application of research approaches and methods.

## Online Features and Site License access:

- Online archive available back to 1986.
- A Site License provides access to all content published during the supply period. Access is granted to a further rolling four-year archive where available during the supply period only. Archive content not included in the license agreement is available to purchase.
