Journal of Simulation is an official journal of The OR Society

Aims and Scope:

Journal of Simulation (JOS) publishes both articles and technical notes from researchers and practitioners active in the field of simulation. In **JOS**, the field of simulation includes the techniques, tools, methods and technologies of the application and the use of discrete-event simulation.

JOS examines a wide range of domains including for example, manufacturing, service, defence, health care and general commerce. **JOS** particularly seeks topics that are not "mainstream" in nature but interesting and evocative to the simulation community.

Online Features and Site License Access:

- Online archive available back to 2006.
- A Site License provides access to all content published during the supply period. Access is granted to a further rolling four-year archive where available during the supply period only. Archive content not included in the license agreement is available to purchase.
- Users benefit from all the online features outlined on page 5.
- **Journal of Simulation** is indexed and/or abstracted in: SwetsWise; OCLC; Infotrieve; International Abstracts in Operations Research; ABI/INFORM; SCOPUS.
