Aims and Scope:

Today’s knowledge management research and practice is disseminated through a wide range of publications. The community is rapidly evolving. Knowledge Management Research & Practice provides a single focus – an outlet for high-quality, peer-reviewed articles on all aspects of managing knowledge, organizational learning, intellectual capital and knowledge economics. The journal has a particular emphasis on cross disciplinary approaches, and on the mixing of “hard” (e.g. technological) and “soft” (e.g. cultural or motivational) issues. This cross-disciplinary focus enables articles in the journal to address other important tensions in the field of knowledge management, such as those between strategy and operations, people and technology, short-term and long-term needs and the organization and the individual.

Online Features:

- Complete online archive available back to 2003.
- Advance online publication - definitive, citable version of papers (complete with DOI) available online ahead of print.
- A subscription to the related Journal of the Operational Research Society includes a subscription to Knowledge Management Research & Practice and Journal of Simulation. Knowledge Management Research & Practice is also available as a standalone journal.
- Knowledge Management Research & Practice is indexed and/or abstracted in: ABI/INFORM; Association of Business Schools (ABS) Academic Journal Quality Guide; Australian Business Deans’ Council (ABDC) Journal Quality List; Australian Research Council ERA Ranked Journals List; International Abstracts in Operations Research/IAOR Online; SCOPUS; Social Sciences Citation Index®.
- Knowledge Research Management & Practice is included in Palgrave Open which offers authors of accepted papers the option to publish their articles with immediate open access upon publication. See page 55.
