Aims and Scope:

Latino Studies is an international, peer-reviewed journal. The principal aim of the journal is to advance interdisciplinary scholarship about the lived experience and struggles of Latinas and Latinos for equity, representation, and social justice. Sustaining the tradition of activist scholarship of the founders of Chicana and Chicano Studies and Puerto Rican Studies, we engage critically the study of the local, national, transnational, and hemispheric realities that continue to influence the Latina and Latino presence in the United States.

The journal is committed to developing a new transnational research agenda that bridges the academic and non-academic worlds and fosters mutual learning and collaboration among all the Latino national groups.
