

Call for Papers for a Special Issue of **URBAN DESIGN *International***

URBAN DESIGN *International* invites authors to submit papers for a special issue on **GIS Technologies and Applications in Urban Design and Planning**. Authors are encouraged to submit original research related to the following topics:

- Sustainable cities and GIS
- Applications for urban environment improvement
- GIS in regional and special planning
- GIS perspective in urban design and development
- City modelling
- Transport planning and accessibility
- GIS mapping
- Data modelling for urban design
- GIS application in conservation of cultural heritage
- GIS technology for public space development
- Use of GIS in landscaping and land management
- E-Governance in urban planning
- International GIS projects on Urban developments

Deadline for submissions is 31st July 2009.

Earlier submissions are encouraged and will be handled as they are received. All papers will be double blind peer reviewed.

Full submission, format and style guidelines as can be found at http://www.palgrave-journals.com/udi/author_instructions.html.

We also invite high quality reviews and research papers on the topic **“Historical Development of Urban Design: From Babylon to Modern Cities”** for future regular issues of the journal. There is no specific deadline for these submissions.
